MRC announcement, and, key dates

The screenshot shows the Medical Research Council (MRC) website. At the top left is the UKRI logo. To its right, the text 'Medical Research Council' is displayed. Below this is a banner image of a hand in a blue glove holding a pipette tip, with the text 'Funding opportunities' overlaid. A navigation bar contains links for 'Home', 'Funding', 'Research', and 'News'. The main heading is 'Second Call for Transformative Healthcare Technologies – Pre-announcement and engagement event'. The text below states: 'The EPSRC, in collaboration with the MRC, will shortly be inviting proposals for adventurous (high risk, high gain) projects as part of the second phase of the Transformative Healthcare Technologies for 2050 call, otherwise referred to as the Transformative Healthcare Technologies 2.0 call. This call will target projects that are guided by a longer-term vision to pursue new, "high risk high reward" ideas and develop thinking and approaches supported by the next generation of underpinning science, engineering and emerging technologies in the healthcare space. We seek and encourage adventurous ideas, new thinking and collaborations that have the potential to significantly improve healthcare delivery by 2050.' A 'Read more' button is located at the bottom right of the text. At the very bottom of the page, it says 'The Medical Research Council is part of UK Research and Innovation.'

Key dates:

- Call opening: Early-September 2020
- Outline proposal deadline: Early-November 2020
- Outline proposal decision: Mid-December
- Full proposal deadline: Early-March 2021
