

## Healthcare Technologies: Call for Investigator-led Research Projects

### Proposal Meeting Minutes

8th April 2019 13:30, SALC6 Sherfield Building, South Kensington Campus ICL

<https://epsrc.ukri.org/funding/calls/htinvestigatorledresearchprojects/>

Attendees: Kenneth Long, Claire Hardiman, Ajit Kurup, Vitali Averbukh, Alexander Howard, Paige Noyce

Apologies: Uwe Oelfke, Ruth Mclauchlan, Matthew Williams, Dorothy Gujral, Jaroslaw Pasternak  
Jurgen Pozimski

#### ➤ Call Summary and Submission

The attendees reviewed the supporting presentation detailing key aspects of the call.

- Call summary
  - ❖ Proposal Scope
- Strategies to address
- Submission
  - ❖ Case for Support
    - ❖ Track record
    - ❖ Proposed research
  - ❖ Pathways to Impact
  - ❖ Workplan
  - ❖ Justification of Resources

#### ➤ Scope of Proposal

The attendees discussed possible research for inclusion in the proposal. Key research areas were:

- ❖ Image processing with real time simulations
- ❖ Beam profile detector

**Attendees to use CASE student application as a baseline for proposal**

## ➤ Actions and next meeting

Ajit and Alex to discuss technologies for X-ray measurement (scintillating fibres and silicon).

Attendees to allocation specific funds for Pathways to Impact – including flexible collaborative working for PDRA's to enable multi-institution working and placements

Claire to investigate pathways for PDRA's to work with/without clinical scientist qualification

Attendees to review and CASE application elements and include in this proposal

Note: Students are not an allowable cost on an EPSRC Standard Grant

Paige to circulate CASE application and template for completion for Case for support and other submission documents

Paige to circulate programme for completing the proposal with a submission date end of July

Ken to consider including equipment into proposal

Note: 50% contribution of equipment funds will be required from the department/institution

Next meeting: Mid May, Paige to coordinate
